

Mark Gordon
Account Executive at Sterling Computers

I had the pleasure of working with Lyle and the Diversity Foundation on a few projects and let me tell you, this guy and this foundation does great things through their mission.

Bridging the gaps between people of all cultures and ethnicity is not easily accomplished but through Lyle's dedication and his team's hard work, their mission is being fulfilled inch by inch through communication and collaborative efforts. I have always believed strong leaders, like Lyle, conduct the little things every day that pays off in big ways.

The State of Minnesota and their constituents today, realize through the mission of the Diversity Foundation, that it is through our unique differences that we can all discover our commonalities of what it means to be human. I highly recommend Lyle and his team's work to move efforts for the common good of all.
